PROFESSIONAL SUMMARY

Versatile Full Stack Developer with **7+ years** of software engineering experience built entirely around the **JavaScript/TypeScript ecosystem**. 5+ years of deep frontend expertise in React and Next.js, combined with solid backend capabilities in Node.js, NestJS, and relational databases (MySQL, PostgreSQL). Currently serving as Frontend Lead at SSL Wireless, delivering full-cycle features from REST API design and database schema planning to responsive, high-performance UI implementation. Passionate about owning features end-to-end and shipping clean, production-ready code across the entire stack.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Tailwind CSS, Ant Design

Backend: Node.js, NestJS, Express.js, REST API Design, Socket.IO, Authentication (JWT)

Databases: MySQL, PostgreSQL, TypeORM (Familiar), Database Design, Query Optimization

DevOps/Tools: Git, GitHub, Docker (Familiar), Webpack, Vite, npm/yarn, VS Code

Testing: Jest, React Testing Library, API Testing

Concepts: MVC Architecture, Microservices (Familiar), CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

SSL Wireless

Dec 2023 – Present

Frontend Lead / Software Specialist

Tech: React.js, Next.js, TypeScript, Redux, Tailwind CSS, NestJS, MySQL

- Led full-cycle development for **eBuddy** — a SaaS HR & Project Management platform, owning frontend architecture (React, Redux) and collaborating closely on backend API design (NestJS, MySQL).
- Solely built the **Instant Merchant Signup** system for SSLCommerz, handling frontend development (React, Tailwind) and integrating with backend payment gateway APIs.
- Designed and implemented database schemas and API contracts alongside backend teams, ensuring efficient data flow from MySQL databases to React UI components.
- Built interactive data dashboards with Ant Design Charts, implementing both frontend visualization and backend data aggregation endpoints.
- Established code quality practices spanning both frontend and backend, including shared TypeScript interfaces and API contract validation.

Apsis Solutions Ltd

Dec 2020 – Nov 2023

Software Engineer

Tech: React.js, TypeScript, Redux, Next.js, NestJS, SQL, Ant Design

- Developed full-stack features across multiple enterprise applications, building React frontends with corresponding NestJS backend services.
- Designed and maintained SQL database structures, writing optimized queries for complex business logic and reporting.
- Managed application state with Redux on the frontend while designing RESTful API architectures on the backend.
- Created responsive, accessible UI components with Ant Design, integrated with backend APIs for real-time data display.

AI-Hiyal Automation

Junior Software Engineer

Sep 2018 – Nov 2020

Tech: JavaScript, SQL, Web Application Development

- Developed full-stack enterprise web applications, building foundational skills in software architecture, database design, and frontend development.
- Designed and maintained relational databases, writing optimized SQL queries and stored procedures for complex business data workflows.
- Gained end-to-end application lifecycle experience from requirements gathering through deployment, establishing strong engineering fundamentals.

KEY PROJECTS

- **eBuddy (SaaS Platform)** — Full-stack HR & project management system. Frontend: React, Redux, Ant Design. Backend: NestJS, MySQL. Led frontend, collaborated on backend.
- **Instant Merchant Signup** — SSLCommerz payment gateway onboarding. Full frontend (React, Tailwind CSS) with backend API integration.

EDUCATION

B.Sc. in Computer Science and Engineering

Daffodil International University, Dhaka

Jan 2013 – Dec 2017

CERTIFICATIONS

- **Frontend Developer (React)** — HackerRank (2024)
- **JavaScript (Basic)** — HackerRank (2024)
- **React Certificate** — HackerRank (2022)
- **SQL Intermediate** — HackerRank (2022)
